Innovation

Custom Solutions

Joints

Daffodil Power Industries provides durable and efficient power cable joints, ensuring reliable connections for all voltage levels. Designed for superior performance and easy installation, our joints meet global quality standards.

**Heat Shrinkable LV
Straight Through Joints**

**Heat Shrinkable Straight
Through Joints upto 36 KV**

**Heat Shrinkable Straight Through
Joints single core upto 36 KV**

**Heat Shrinkable Straight Through
Joints PILC Upto 36 KV**

**Heat Shrinkable
Transition Joint**

**Heat Shrinkable Straight
Through Joints AB Cable**

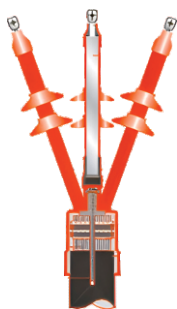

Screened Separable Connectors

Daffodil Power Industries offers high-quality screened separable connectors designed for safe and reliable electrical connections. Ideal for compact installations, they ensure excellent insulation and performance in demanding environments.

Termination

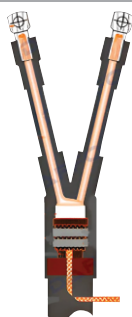

Daffodil Power Industries provides reliable cable termination solutions for secure and efficient connections. Designed for durability and easy installation, our terminations ensure optimal performance across various voltage levels.

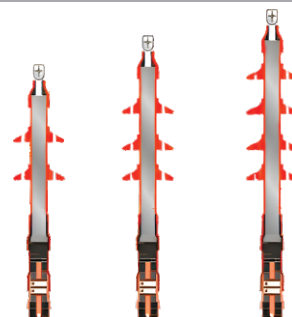

Series Heat Shrinkable Terminations
Suitable for 3 Core XLPE/EPR
Insulated Cables For 12kV

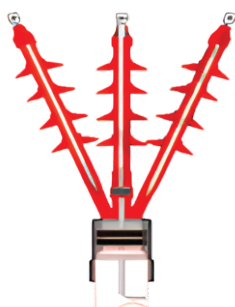

Series Heat Shrinkable Terminations
Suitable for 3 Core XLPE/EPR
Insulated Cables For 24kV

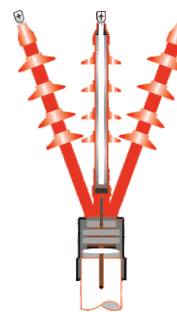

Series Heat Shrinkable Terminations
Suitable for PVC/XLPE
Cables upto 3.3kV.

Series Heat Shrinkable Terminations
Suitable for Single Core XLPE/EPR/PVC
Insulated Cables For 36kV

Series Heat Shrinkable Terminations
Suitable for 3 Core Paper Insulated
Lead Covered MIND Cable For 24 kV

Series Heat Shrinkable Terminations
Suitable for 3 Core Paper Insulated
Lead Covered MIND Cable For 36 kV

Series Heat Shrinkable Terminations
Suitable for 3 Core XLPE/EPR
Insulated Cables For 36kV

Series Heat Shrinkable Terminations
Suitable for 3 Core Paper Insulated
Lead Covered MIND Cable For 12 kV

Power Cable Accessories

Daffodil Power Industries provides reliable cable termination solutions for secure and efficient connections. Designed for durability and easy installation, our terminations ensure optimal performance across various voltage levels.

Heat Shrinkable Anti Tracking Tubing

Heat Shrinkable Bus Bar Insulation tube

Heat Shrinkable Cable Breakout

Heat Shrinkable Dual Wall Tubing

Heat Shrinkable Low Voltage Breakout

Heat Shrinkable Semi Conductive Breakout

Heat Shrinkable Anti Tracking Rain Sheds

Heat Shrinkable Right Angle Boot

Heat Shrinkable Bus Bar Insulation tape

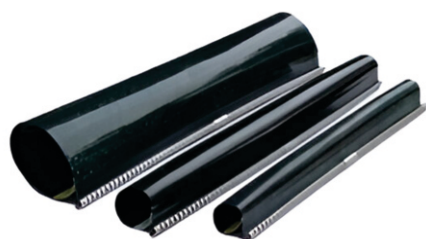

Heat Shrinkable Anti Tracking Straight Boot

Heat Shrinkable Medium Wall Tubing

Heat Shrinkable Stress Control Tube

Heat Shrinkable Wrap around Sleeve
